TO BUILDERS AND PLUMBERS.
The attention of the Trade is called to
JOHN WARNER & SONS'
PATENT VIBRATING
STANDARD PUMP.
which is recommended for the strength

By the introduction of the ribstitch standard, the cumbersome carriage and expensive shaps and guides are unnecessary, rendering the price considerably less than pump handle on rim and plan.

Reel and Warr. Reel for raising studs from a depth not exceeding 10 feet. Also Garden Engine constructed on the same principle.

JOHN WARNER & SONS
2, Fenchurch Street, London.
Manufacturers and Exporters

A ROTARY PUMP, with treble action, TO BE SOLD, capable of throwing four thousand gallons per hour with one man. It was intended for the Great Exhibition, but was not shown for admission, there, where however the manufacturers obtained a prize medal. It is adapted for use in any position, convenient as pleasure into a fire-engine, and is admirable for use in a variety of purposes, among which may be named the raising of water, the draining of land, the raising of water for the use of steam, the raising of water for the use of steam, and to raise, to 25 ft. 8 in. at a flow of 1000 gallons per hour.
